Downey,

Sorry I didn't send more background earlier. (b) (6)
[REDACTED] So a
little distracted.

But its pretty simple. Billy Kirkland from WH Intergovernmental asked me to join him in meeting with the WDC office head for the Navajo Nation; probably because I've known the young man a long time (he was formerly an intern for me). I think Billy is just curious to find out how we can have a better level of communication with the NN on the wide range of issues where we intersect -- from Bears Ears to Navajo Generating Station and the Code Talkers event.

I'll fill you in after we meet. As always, feel free to call me at (b) (6) if you have more questions.
